Guaranteed Price Movers welcomes you

LETTER FROM THE PRESIDENT

I Guarantee it ..

GP (Guaranteed Price) Movers is a company predominantly managed by a team of strong-willed, professional and self-driven women. In an industry traditionally controlled by men, this unusual leadership excels in communications with clients, understanding family needs and business constraints through the process of relocation, providing personable service and a seamless transition to a new home or commercial space.

Nothing is overlooked at GP Movers, as our extensive experience allows us to offer clients a unique opportunity; our expert estimators are trained and assigned the mission of coming to your home/ business and drafting a detailed account of your belongings. In accordance with your packaging needs and the distance between your existing and future location, the estimator will present you with a guaranteed price for the cost of your move. There will be no hidden fees, no added payments and absolutely no factors left out of our proposal. All costs will be included, transparent and presented in advance, allowing you to make a clear and informed decision. This guaranteed price is our promise to you as well as our vision for the future of our industry.

At GP Movers we are committed to serve our customers fairly and honestly, we are frequently involved in community services and works, we support the Move Green Initiative and take part in environmentally friendly operations. Our fleet of trucks features catalytic converters that dramatically reduce the emission of greenhouse gas. We donate trees for the use of cardboard boxes in the process of relocation, support American Forests in their "Global ReLeaf" reforestation program and constantly explore new ways to protect and preserve our planet's natural resources.

GP Movers' services include household and commercial Moving, local and interstate transportation services for your belongings, packing and crating, access to a wide range of packing supplies, vehicle transportation, freight forwarding, warehouse storage services, international customs relations, international freight Consolidation and distribution. Our ongoing aspiration to offer convenient and reliable moving services continuously broadens our expertise as we make it our mission to widen our operations in order to make GP Movers the finest all-inclusive answer to your relocation needs.

Best wishes for your future,

Anat Lehrman
President and CEO

COMMERCIAL RELOCATIONS

With GP Movers' special division dedicated to commercial relocations, your office move becomes easy and cost-effective

7 Steps to Achieving a Successful Commercial Relocation

1. **Planning:** At GP Movers, we assist you in pre-planning your move and assure the smoothest possible transition.
2. **Preparation:** We attend to all factors of your relocation, never losing sight of details. We provide you with all necessary packing equipment and materials ahead of time. Our skilled and knowledgeable moving crews and dispatch department are available to answer all the questions you might have prior to your relocation.
3. **Personnel:** We assign a foreman to supervise the moving crew for your relocation. Our well trained team of movers arrive on schedule and perform the packing and loading of your equipment with high efficacy, using the safest methods in our industry and adhering to meticulous protocol.
4. **Proper Documentation:** GP Movers furnish a detailed inventory list. Every box and piece moved will include notation on the floor plan of your new space. Detailed information will be gathered in order to make for an organized and accurate delivery of your equipment at its destination.
5. **Professionalism:** At GP Movers we pride ourselves in providing professional, inclusive yet personable

service. We possess knowledge and experience backed by a comprehensive packing protocol that reduces the risk of damage to your equipment and belongings.

6. **Provisions:** We use advanced methods, a wealth of knowledge and proper equipment to make your relocation efficient and simplified. Library carts are utilized to maintain the order and integrity of books and records, while boxes and odd-shaped items are pre-loaded on dollies to avoid prolonged use of elevators on the actual moving day, thereby diminishing interruption or inconvenience to others.
7. **Portage:** GP Movers ensure that your equipment and belongings are transported to your satisfaction. Unpacking and reassembly at your new location will take place according to the terms of your service agreement.

STORAGE

STORAGE YOU CAN TRUST

GP Movers offer reliable, secure and climate controlled storage services for customers. Our storage facilities are nationwide and were created to provide a trust-worthy solution for your storage needs, for as long as you desire. Once these services are no longer needed, we will schedule and coordinate delivery from our warehouse to your location of preference.

STORAGE UNITS

With GP Movers you are charged exclusively for the storage space you require. We offer storage units that fit the size of your belongings and your budget, from standard 5'x7'x8' units as needed, you will be charged for space and usage per diem.

OVERSIZED ITEMS

GP Movers designate particular warehouse space for large items such as pianos, oversized furniture, pool tables, monumental works of art, etc. Such items are protected, inventoried and stored in a climate controlled environment.

ITEMIZED INVENTORY

We keep track of your belongings with our itemized inventory system. Everything moved into a storage unit will be recorded. Our professionals will be sure to offer help in determining the storage size you require and make it easy for you to keep track of what you have in storage.

AMENITIES

Our climate controlled storage facilities are highly secured and guarded by 24-hour surveillance. We offer a variety of storage plans and unit sizes to perfectly fit your household or commercial load. When left in the hands of GP Movers your possessions will keep safe.

DOOR-TO-DOOR SERVICE: LOCAL, NATIONWIDE AND INTERNATIONAL

PACKING GUIDELINES FROM THE PROS

SO YOU PREFER TO DO YOUR OWN PACKING...

LET US HELP YOU DO IT RIGHT

GP Movers provide the options of partial or full packing and unpacking services.

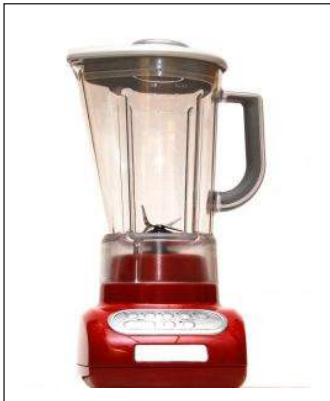

Some of our clients choose to save on time and assign their moving crew to complete the task of packing, while others prefer the control of packing and the resulted lower cost. Either way you choose, proper packing is essential for the successful transfer of your possessions. If you choose to do some or all of your packing, be sure to browse our "Pack Like a Pro" guidelines and know-hows.

PACKING PREPARATION

- Contact your GP Movers agent for boxes and packing materials.
- Have at fingertips: thick permanent marker, packing paper, moving boxes of assorted sizes and packing tape.
- Designate and label a "Parts Box" for hardware from dismantled furniture and similar items. Bag each set of parts and mark what item they belong to. Leave the box open on the day of your scheduled relocation, in case the moving crew has additional items to disassemble.
- Keep in mind: Packed boxes should not weigh more than 50 pounds each.
- Pack heavy items (such as books) in small boxes, lightweight items (such as linens) in large boxes.
- Avoid overfilling but use crumpled paper for a firm fit that prevents shifting and/or crushing. Pad the bottom and sides of boxes with paper, then pad the top prior to sealing.
- Build the box in layers, with heaviest items at the bottom and lightest on the top.
- Pack seldom used items and out-of-season items first, then infrequently used items, leaving items in daily use last.
- Discard, sell or give away items you no longer need, rather than paying to relocate them.
- Remove items from plastic storage containers and repack them in boxes.

PACK LIKE A PRO!

So you prefer to do your own packing

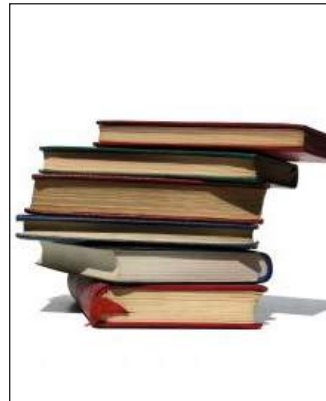

SMALL APPLIANCES

Make sure cords are wrapped and secured. Wrap each small appliance in paper and place in a box. You may wish to use towels and linens as additional padding. Empty steam devices of water. Remove all batteries.

MAJOR APPLIANCES

Require preparation in advance. Appliances must be disconnected, cleaned and drained, with cords secured. Our sales representative can assist you in arranging for third party services, if needed.

BOOKS

Pack flat or with spine facing the bottom of the box. Do not pack spine up.

RUGS

We suggest rugs be cleaned while paying special notice to ensure they are completely dry before the move. For proper handling, please allow your rugs to be packed by our professional crew.

SILVER

Air will cause silver to tarnish and friction will cause surface scratches. Enclose each piece in clean paper or plastic.

CLOTHING

Use moving boxes or save space by using dresser drawers to move casual clothing. The use of wardrobe boxes for hanging clothing will make setting up your closets easier and reduce wrinkles.

DELICATE ITEMS

Wrap items such as figurines in tissue, then in paper for additional protection. Use plenty of cushioning and mark the box with a "FRAGILE" sticker. For particularly valuable or fragile items, we recommend bubble wrap.

DRAPERIES

Line a large box with clean paper and gently fold in your draperies, to prevent wrinkling.

PACK LIKE A PRO!

So You Prefer To Do Your Own Packing

ELECTRONICS

Whenever available, Pack computers and other delicate electronics in original boxes. Be sure to disconnect all wires before the movers arrive.

EXERCISE EQUIPMENT

Make sure to check manufacturer's guidelines. If disassembling is required, do so cautiously and designate a well-padded box for loose parts. Be sure to fold or take apart oversized pieces whenever recommended by manufacturer.

LINENS

Protect your linens in large plastic bags, then place in a carton lined with clean paper. Heirloom and valuable linens should be additionally protected with tissue paper.

PHOTOGRAPHS

Pack your photographs, family videos, slides and negatives in a box of their own. Do not place them by alongside other household items. If possible, carry irreplaceable items yourself.

CDS, DVDS, RECORDS, TAPES

Place in original Packaging whenever possible. If you don't have record jackets, wrap in tissue to prevent scratching, then wrap with paper. Stand CDs and records on edge, layering with crumpled paper. Support stacks with cardboard or similar item. Mark as "FRAGILE".

CHINA & GLASSWARE

Use a dish pack box for proper protection. Wrap each item separately. Protect each piece with paper (not newspaper which can permanently stain). Using several sheets of packing paper, start from one corner and wrap several layers around, tucking ends over. Nest cups and small bowls. Stand plates, saucers and platters on edge. Use generous padding on all sides and label "FRAGILE".

PLANTS

Live plants require special handling. Please ask for our special brochure about relocating plants. Artificial plants and flowers should be packed in a separate box. Wrap each stem carefully in tissue. Make sure the box is very sturdy to prevent crushing. Label box "FRAGILE" and "THIS SIDE UP".

LAMPS

Remove light bulbs and lamp harp. Wrap separately. Cushion the lamp base well. More than one lamp may be boxed in a carton. Wrap lamp shades in tissue paper or linens. Line a box with clean paper padding, at least two inches on all sides. Place shades in a separate box. You may nest shades as long as they do not touch. We highly recommend professional packing for glass.

SPECIAL ATTENTION NEEDED

No explosives, or ammunition of any kind!

GLASS & MARBLE TABLE TOPS

These items require special protection and therefore ought to be professionally packed. Please contact our estimators or representatives.

DELICATE & BULKY ITEMS

Antiques and other items may require special handling. Items like pool tables, plasma TVs and grandfather clocks may require third party services. Our estimators and representatives can advise you on the best way to protect these possessions.

CLOSE, SEAL & LABEL BOXES

- Leave boxes containing items on your High Value Inventory and firearms unsealed. On the day of your relocation, our foreman will inspect the boxes and secure them in your presence with GP Movers Security + Plus™ seals.
- Seal all other boxes securely with packing tape. Do not use masking or other types of tape as they may not adhere and hold properly.
- Label all boxes with your name, the basic contents and the designated room/ space in your new location. This will assist our foreman in completing an accurate inventory and placing the items correctly in your new location.
- Use special stickers (available from your GP Movers representative) to identify boxes containing fragile items and items to load last and unload first.
- Leave your Parts Box and tools needed to reassemble items to load last and unload first.

PROTECT YOUR BELONGINGS THE PROFESSIONAL WAY

Heavy-duty reinforced boxes in a variety of sizes, packing tape and paper are available from your GP Movers representative. Please select and use the proper moving boxes and materials. Once you have determined the items to relocate, we will gladly advise you on containers which will best accommodate your needs.

Remember that improper packing materials may prove costly in the long run for several reasons:

- Used boxes may be deformed, compromised and lack the heavy weight reinforcement of household goods boxes.
- Boxes in odd sizes and shapes make loading difficult and less efficient. In addition, they may not fit well together, causing other boxes to shift during transit. In extreme cases, insufficient boxes may be refused for transportation if they jeopardize the safe transportation of the contents of the load.
- It is important to use genuine packing tape. Other types of tape (such as masking tape) do not adhere as strongly and do not offer the same strength. Newspaper may be used for padding and wrapping some items. However, items such as porcelain and china should be wrapped in tissue or special moving paper to prevent ink transfer.

BOX SIZES:

1.5 Cu. Box – 16.5" x 12.5" x 13"

For books, cans, heavy items

3.0 Cu. Box – 18" x 18" x 16.5"
